

A DECORATIVE WALL FINISH

**GAMAZINE FACTORY
ZIMBABWE**

WHAT IS GAMAZINE?

Gamazine is a premium textured decorative coating designed to provide both aesthetic appeal and long-lasting protection.

WHY CHOOSE GAMAZINE?

Compared to other paints, Gamazine provides a 3D effect and is more durable (once off and maintenance free application that will last for 10-20 years)

ADVANTAGES OF USING GAMAZINE?

Gamazine is a ready mixed product, ready for use.

Suitable for interior & exterior.

This product can be applied to any hard surface such as:

Asbestos, Cement, Brick, Wood, Fibre Glass, Steel, Tiles etc.

Ideal to cover any uneven surfaces

The gamazine can be painted if required

Totally Color Fast.

USES OF GAMAZINE?

Gamazine is ideally used to color change existing walls and ceilings that need to be painted. The glamour option will give that luxurious and executive interior finish.

LONG LASTING?

No need to paint your walls and surfaces for the next 10-20 years because the Gamzine will not fade, crack or peel, thus saving you money.

**GAMAZINE FACTORY
ZIMBABWE**

-Available Colors & Finishes

- Classic Granite Finish
- Modern Matte Finish

- Custom Color Blending (available upon request)

KEY FEATURES OF GAMAZINE PAINT:

Texture and Finish:

Gamazine Paint creates a textured, multi-dimensional finish that resembles natural stone or granite.

The finish is often granular or speckled, giving it a sophisticated and elegant look.

Composition:

It is typically made from a blend of acrylic resins, marble dust, quartz, and other mineral particles.

These materials contribute to its durability and stone-like appearance.

Versatility:

Suitable for both interior (e.g., feature walls, columns) and exterior applications (e.g., facades, balconies).

Can be applied to various surfaces, including concrete, plaster, wood, and metal.

Durability:

Highly resistant to weathering, UV rays, and moisture, making it ideal for outdoor use.

Long-lasting and maintains its appearance over time.

Customization:

Available in a wide range of colors and textures, allowing for customization to match different design themes.

Can be mixed to create unique patterns and effects.

Application:

Applied using a trowel or spray gun, depending on the desired texture.

Requires skilled application to achieve the best results.
